

Part of Gloucester Coal

ELECTRICAL TRADESPERSON

Gloucester Coal is a publically listed Australian mining company with exploration and mining operations in the Gloucester Basin and the Hunter Valley in NSW and Middlemount, in the Bowen Basin, QLD.

Gloucester Coal operates two underground coal mines in NSW, Tasman and Abel, which are located 20 minutes from the coastal port of Newcastle. We are seeking competent and experienced underground Electricians for our Newcastle based bord and pillar operations.

Electrical Tradespersons are responsible for supporting the achievement of safety and production goals by taking personal responsibility, contributing to the team and undertaking all work in a safe and effective manner. In addition to this, Electricians are accountable for the effective operation of the work unit by providing high quality and timely maintenance and breakdown services and actively supporting production efforts when required. A comprehensive knowledge of, and commitment to, high standards of safety, health and environment are also necessary.

Successful applicants will possess strong interpersonal skills and excellent problem solving abilities.

Essential Criteria

- Electrical trade qualification
- Experience in maintaining and repairing underground mining equipment
- Experienced in the installation and maintenance of flameproof equipment and intrinsically safe electrical equipment
- Familiarity with conveyor systems, mine monitoring and safety control systems

To apply for this role please select Apply now for 'U/G Electrical Tradesperson'. Complete the application form and attach your resume and a cover letter that addresses the essential criteria for the role.
