

Part of Gloucester Coal

## EXPERIENCED U/G PRODUCTION EMPLOYEE

---

Gloucester Coal is a publically listed Australian mining company with exploration and mining operations in the Gloucester Basin and the Hunter Valley in NSW and Middlemount, in the Bowen Basin, QLD.

Gloucester Coal operates two underground coal mines in NSW, Tasman and Abel, which are located 20 minutes from the coastal port of Newcastle. The Production team member is responsible for supporting the achievement of safety and production goals by taking personal responsibility for managing themselves, contributing to the team and undertaking all work in a safe and effective manner.

### Essential Criteria

- Underground coal mining experience
- Demonstrated commitment to safe work behavior
- Ability to learn and willingness to apply that learning to the work environment
- Demonstrated ability to build productive relationships within and between teams and at all levels of the organisation
- Ability to identify and solve workplace problems
- Sound work ethic and responsible nature

If you meet the above criteria and are looking for a secure future with training and development opportunities, please forward your application as directed below.
